Moving boundary device for monitoring shelf-life of a perishable product

US Pat. 5045283 - Filed Aug 2, 1988 - JP Labs Inc.

A device for monitoring the time-temperature storage history of a perishable product having a measurable activation energy of product deterioration ...

Color changing device for monitoring shelf-life of perishable products

US Pat. 5053339 - Filed Nov 3, 1988 - J P Labs Inc.

This is done by selecting the matrix layers and optionally the barrier layer ...
is provided a device for monitoring the time-temperature storage history of ...

Method and apparatus for monitoring operational performance of fluid storage ...

US Pat. 6401045 - Filed May 22, 1998 - Warren Rogers Associates, Inc.

The algorithm includes generating the product of a matrix and its transpose by ...
... the invention features a method of monitoring a fluid storage and ...

Solid state device for monitoring integral values of time and temperature of ...

US Pat. 5254473 - Filed Mar 16, 1990 - JP Laboratories

TEMPERATURE OF STORAGE OF PERISHABLES ... on diffusion of a chemical radiation
and thus the device serves as a radiation do- from one matrix to the other, ...

Apparatus for monitoring and controlling vessels containing liquid

US Pat. 4275382 - Filed Jul 18, 1979

1 in relation to the liquid storage tank. the control means, acts to receive and
store for future ... These first temperature signals are in matrix array. ...

Integrity monitoring system for storage tank insulation

US Pat. 3967256 - Filed Apr 24, 1974 - Marine and Industrial Developments Limited

When used in low temperature containment situa- trade marks "Adiprene" and ...
The layers forming the cellular matrix fore referred to, the different ...

Stable emulsions and improved temperature monitoring films prepared therefrom

US Pat. 4045383 - Filed Jan 21, 1976 - Hoffmann-La Roche Inc.

As previously indicated, the properties of the film or supportive matrix are ...
Temperature Response (Green Color) 31.75 33.0 Storage Time Months Change in ...

Method and apparatus for monitoring operational performance of fluid storage ...

US Pat. 6691061 - Filed Jul 9, 1999 - Warren Rogers Associates, Inc.

The entries in matrix x are measured sales volumes, time, ... Thus the total data
storage requirement for each period is determined only by the square of ...

Method and apparatus for purifying hydrogen gas

US Pat. 5895519 - Filed Mar 21, 1997 - SAES Pure Gas, Inc.

Such beds can be formed 30 the storage matrix whereupon it can be ... or other

means of temperature control, storage matrix. arranged within and/or near the ...

Protective device for storage and transport containers

US Pat. 6046678 - Filed Jun 5, 1998

The strain gauges are operatively connected to a monitoring circuit including a timer and a memory. A protective device for storage and transport containers ...
